## Tell a different healthcare story with Care.Cards

Sasha has new insurance for herself, her daughter Michelle, and her son Raymond.

She bought her plan from Best Health.

Insurance is hard to understand, but this time Sasha feels it will be different

SOLVE.CARE

This time, Sasha has a Care.Wallet and knows everything about her insurance plan and benefits.

She also received a ride card, which she uses to take Raymond to the doctor. Wow!

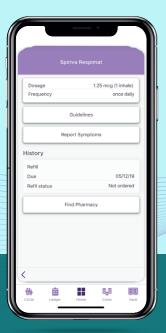

At the doctor's office, all she has to do is show her Care.Wallet. She doesn't even have to make a payment.

•

After the doctor checks Raymond, he gives him a prescription.

Sasha keeps in sync with the pediatrician by reporting Raymond's progress in her Care.Wallet.

After 3 days, the pediatrician notices that Raymond isn't getting any better and refers him to a specialist.

SOLVE.CARE

Sasha picks the option that works best for her and Raymond, and the appointment is confirmed instantly!
